

**Amendments to the Drawings:**

The Examiner has pointed out errors in the drawings to which applicant responds herein. Figures 1 and 13 have been amended to include the legend "Prior Art" as per the Examiners request. Further, Figure 14 has been amended to include 'dots' that conductively connect the nodes between P1, N1 and P2, N2 respectively.

It was always applicants' intent that the nodes be considered conductively connected. Applicant notes that the use of such dots is not necessarily a universal convention and that those skilled in the art would recognize that the nodes in question were conductively connected. However, the dots have been added as per the Examiner's request in order to clarify the point. Applicant firmly believes that the 'dots' do not indicate new matter. Reconsideration and withdrawal of the drawing objections is requested.
